

Increasing YOUR Revenue While Protecting IHS Funds

**a small glimpse
into our success...**

- ★ **175% increase in 3rd party collections per month**
- ★ **Enrolled over 10% of tribal members in 3rd party primary payers**
- ★ **Protected more than \$13M in PRC funds by converting to Medicaid coverage**
- ★ **Approved disability claims resulted in more than 300 Dates of Services being billed to Medicaid instead of IHS funds**

THE GO-TO RESOURCE IN HELPING YOUR DOLLARS GO FARTHER

For over 25 years, the stability of being privately owned has afforded RCA the opportunity to go above and beyond for our client partners to achieve superior results. RCA is dedicated to providing exceptional, professional service based upon our values of honesty, integrity and compassion.

How RCA can help

Truly relationship driven, RCA understands each nation's individual culture and will develop customized solutions that fit the needs of your community. We want to ensure your funding dollars are allocated correctly while your members continue to receive the highest level of healthcare needs available.

RCA will screen for all possible benefits to assist in saving IHS dollars for the members not eligible for other benefits including but not limited to Medicaid, Disability, Medicare, Medicare Savings Plans, Affordable Care Act, Veterans Health System and Crime Victims.

How does this help the nation?

- No cost to patients
- Removes members from tribal rolls and enrolls them as a 3rd party revenue source, while still encouraging them to utilize the tribal health system.
- 3rd party payers directly reimburse the nation for services, increasing monthly tribal collections
- Decreased utilization of IHS dollars used on high cost prescriptions and readmissions for chronically ill patients

Eligibility Scanning

As a first step, RCA can utilize our eligibility scanning system to review your current rolls to uncover any current coverage your members may have, including Dental and Vision only plans.
